

Online Safety, Security, Ethics and Etiquette Standards

Q Learning Objectives

- define online safety, security, ethics, and etiquette standards
- enumerate practices on the effective use of ICT

Q Learning Objectives

- discuss existing laws, rules, and/or policies related to ICT

Q Learning Objectives

- apply online safety, security, ethics, and etiquette standards and practice in the use of ICTs as it would relate to their specific professional tracks

Never Have I Ever

Never Have I Ever

Never have I ever
shared my passwords
with anyone, even a
close friend or family
member.

Never Have I Ever

Never have I ever
clicked on a suspicious
email or link without
verifying its source.

Never Have I Ever

Never have I ever
engaged in
cyberbullying or
online harassment.

Never Have I Ever

Never have I ever
posted personal
information, like my
address or phone
number, on a public
social media profile.

Never Have I Ever

Never have I ever
used someone else's
online account
without their
permission.

Never Have I Ever

Never have I ever
fallen for an online
scam or phishing
attempt.

Never Have I Ever

Never have I ever
participated in
spreading false
information or fake
news online.

Never Have I Ever

Never have I ever failed to report an instance of online harassment or cyberbullying when I witnessed it.

Never Have I Ever

Never have I ever used someone else's intellectual property (e.g., images, videos, or written content) without proper attribution or permission.

Never Have I Ever

Never have I ever
overshared personal
information on social
media platforms.

Never Have I Ever

Never have I ever
engaged in "trolling"
or deliberately
provoking others
online.

Never Have I Ever

Never have I ever
neglected to update
my software and
antivirus programs
regularly.

Never Have I Ever

Never have I ever
violated online
community guidelines
or terms of service
knowingly.

Never Have I Ever

Never have I ever
shared someone
else's private
messages or online
conversations without
their consent.

Are you safe and secured
online?

How safe and secured are
you online?

Let's define the ff:

- Online Safety
- Online Security
- Ethics
- Etiquette
- Netiquette

Online Safety

- e-safety or cyber safety
- maximization of internet user's knowledge and awareness of safety protocols, online crimes, and security risks in the private property and information which are connected to the use of internet

Online Safety

- user's precautionary measures that he or she applies to ensure that his or her experience online does not harm him or her in any way
- Ex: when someone creates a social media account and sets a strong password with letters, numbers, and symbols

Online Security

- rules that are followed and the actions that are taken to make sure that online users and data privacy aren't compromised by cybercriminals, (Mocan,2019)

Online Security

- designed by websites and other internet pages to ensure that the people accessing their sites and pages are protected from different online risks and dangers

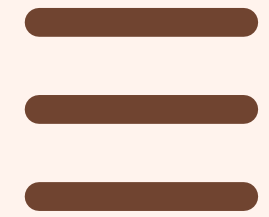

Online Security

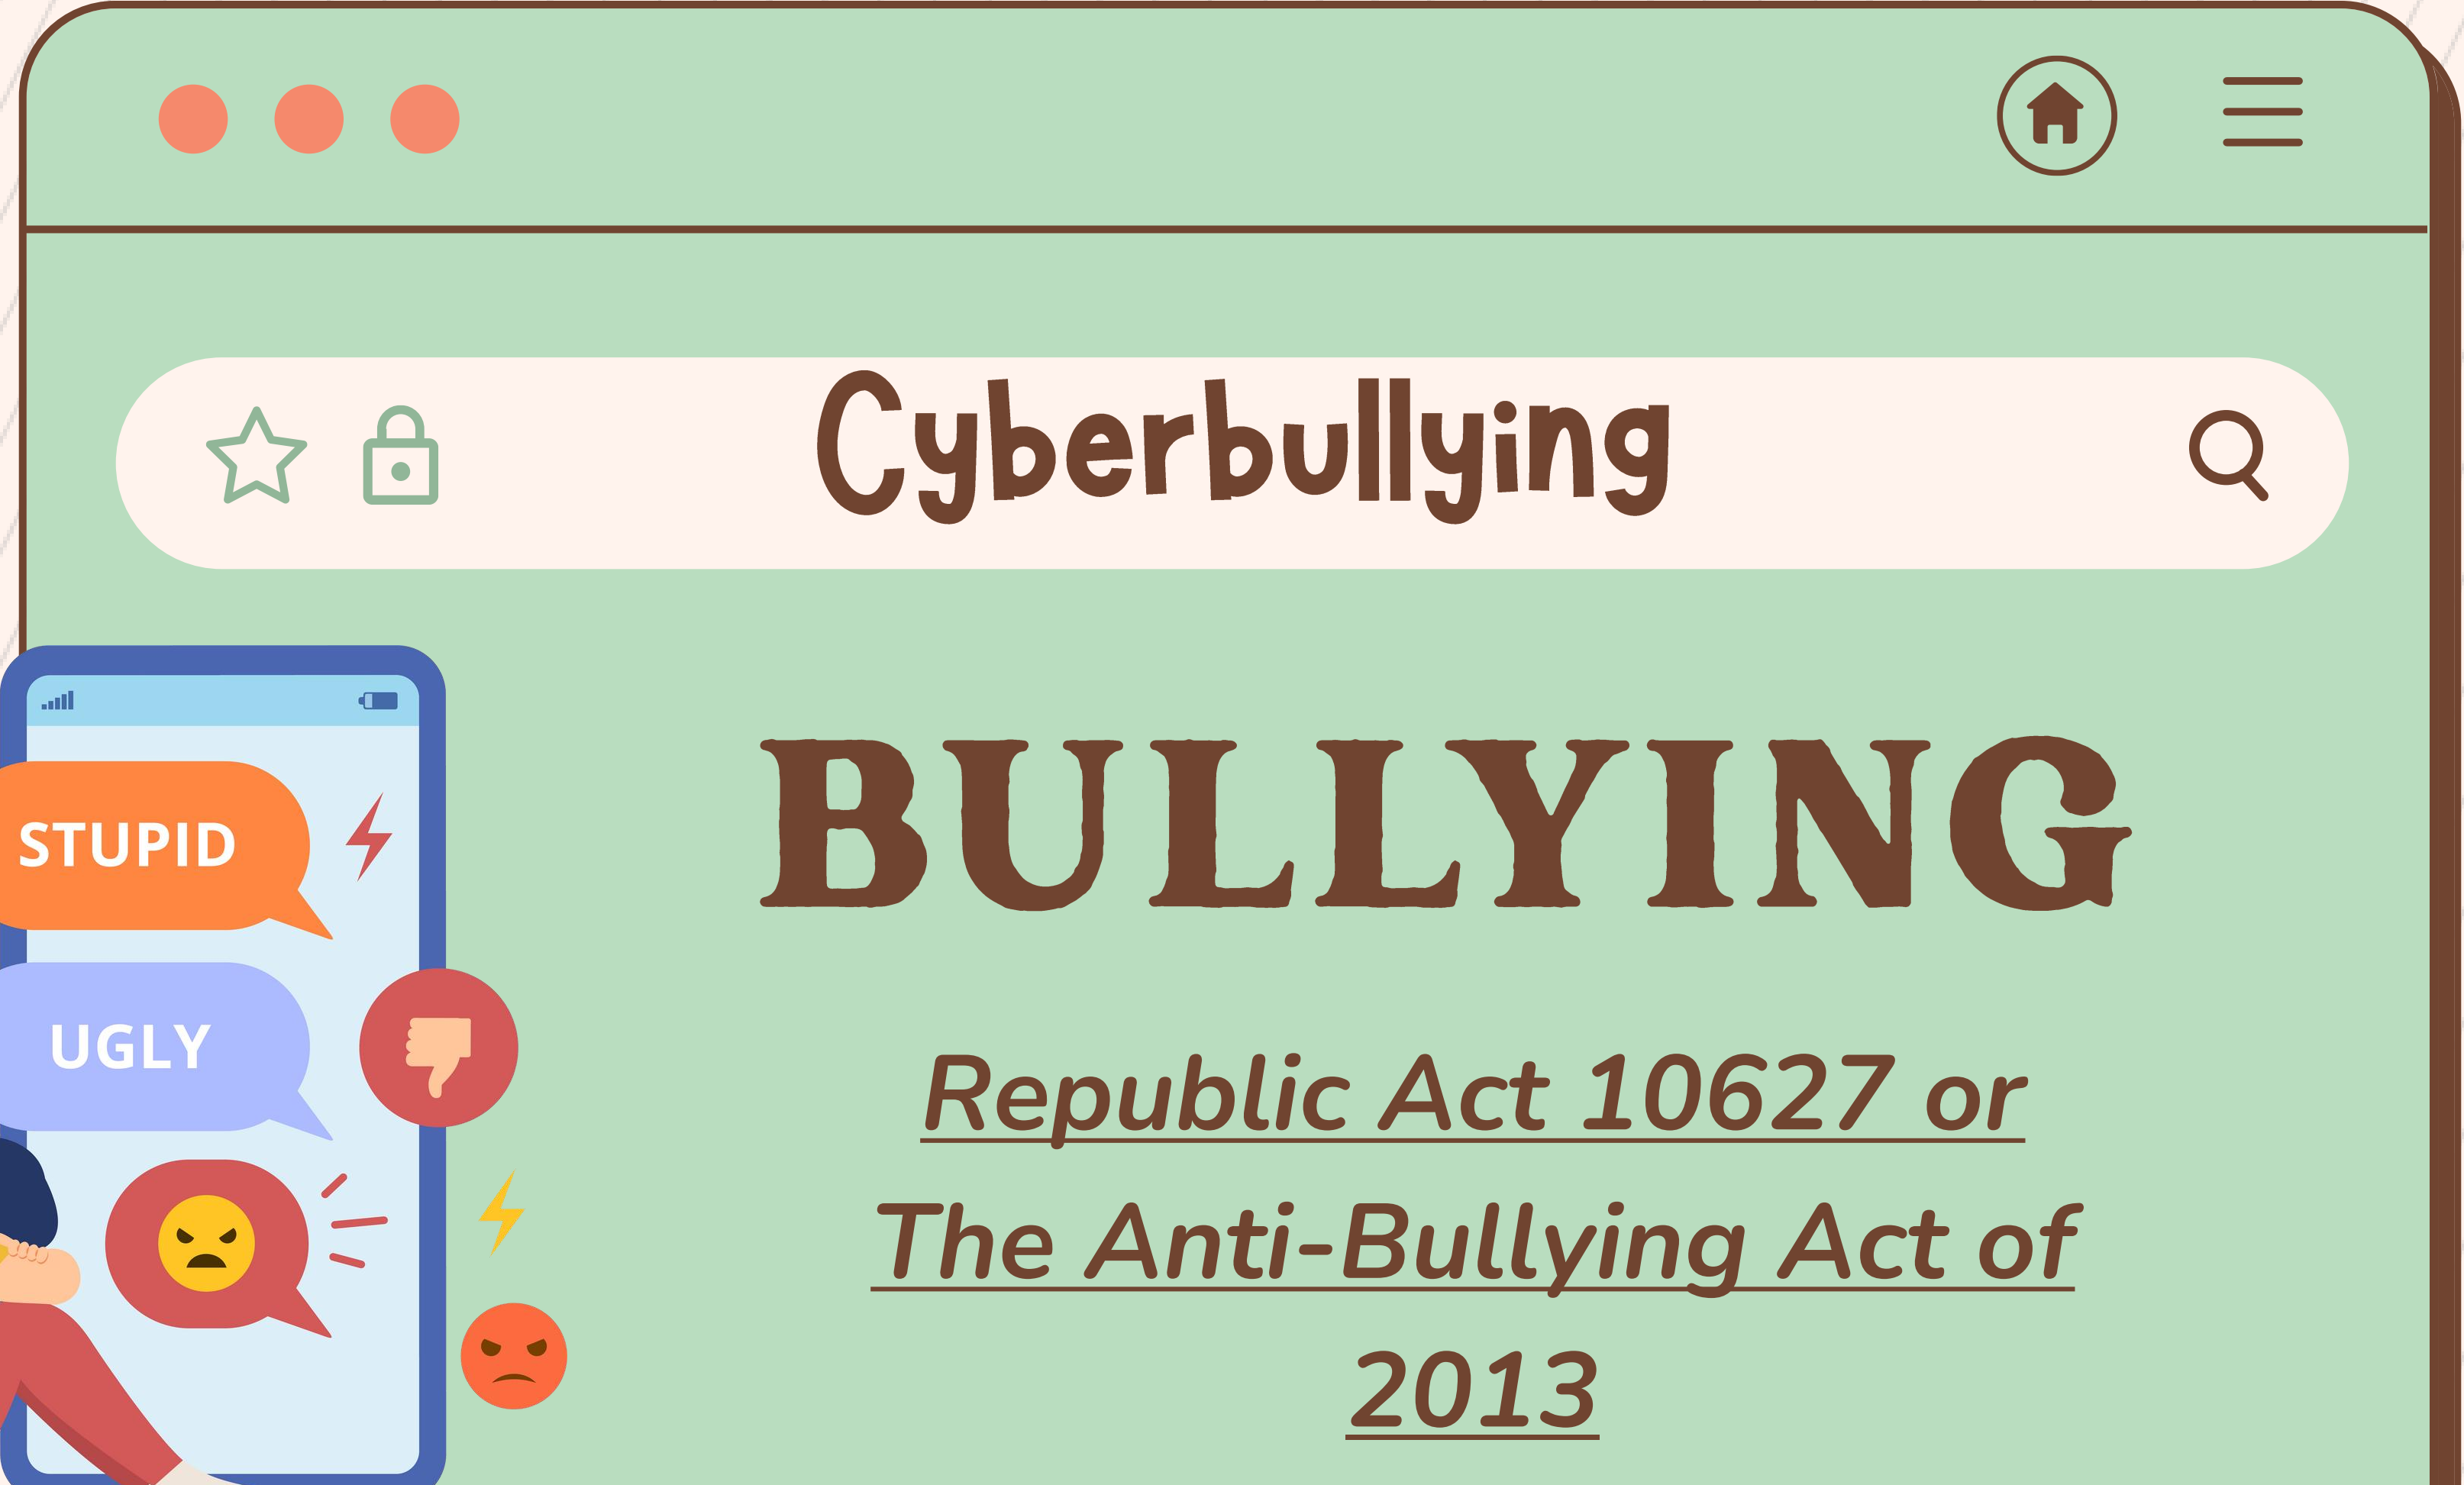

- For instance, institutions that allow the creation of online accounts among their employees may employ encryption techniques on the personal data, so that it will be hard for hackers to steal such sensitive data.

Online Crimes

- Cyberbullying
- Cyber-libel
- Identity Theft
- Phishing
- Plagiarism and Copyright Infringement

Cyberbullying

BULLYING

Republic Act 10627 or
The Anti-Bullying Act of
2013

Cyberbullying

- “any severe or repeated use by one or more students of a written, verbal, or electronic expression, or a physical act or gesture, or any combination thereof, directed at another student that has the effect of actually causing or placing the latter in reasonable ***fear of physical or emotional harm or damage to his property; creating a hostile environment at school, infringing on the rights of another, or materially or substantially disrupting the education process***”

Cyberbullying

- **Section 3:** “covers social bullying aiming to belittle another individual or group or gender-based bullying that humiliates another on the basis of perceived or sexual orientation, or gender identity”

Different Forms of Cyberbullying

Cyber Safety: An Interactive Guide to Staying Safe on the Internet

FLAMING

online fight using
electronic message
with angry and
vulgar languages

HARRASMENT

act of repeatedly
sending nasty, mean,
and insulting
messages

DENIGRATION

sending or posting
gossip or rumors
about a person to
damage his or her
reputation or
friendships

Different Forms of Cyberbullying

Cyber Safety: An Interactive Guide to Staying Safe on the Internet

IMPERSONATION 🔍

is when someone is pretending to be someone else and sending or posting material to get that person in trouble or danger or to damage that person's reputation or friendships

TRICKERY 🔍

is when someone is talking to a person to let him or her reveal his or her secrets or embarrassing information and then, shares sensitive information online

Different Forms of Cyberbullying

Cyber Safety: An Interactive Guide to Staying Safe on the Internet

OUTING

act of sharing
someone's secrets
or embarrassing
information or
images online

EXCLUSION

is when one is
intentionally or
cruelly excluded
from an online group

CYBERSTALKING

the act of repeated,
intense harassment,
and denigration that
includes threats or
create significant
fear

Cyberbullying

When cyberbullying is observed:

- Inform a trusted person.
- Try not to instigate.
- Block connection with the bully.
- Always be aware.
- Logout from online accounts.
- Be not a cyberbully.

Cyber-libel

The unlawful or prohibited acts of libel as defined in Article 355 of the Revised Penal Code, as amended, committed through a computer system or any other similar means which may be devised in the future.

Identity Theft

“all types of crimes in which someone wrongfully obtains and uses another person’s personal data in some way that involves fraud or deception, typically for economic gain”

Identity Theft

- When “shoulder surfing” is done by criminals, as you use online communication in public places.
- When you receive pre-approved credit cards but discard them improperly.
- When you respond to spam mails or unsolicited emails which require you to input personal data.

Identity Theft

Practical Tips:

- Use strong password.
 - SURP Test

Strong

Unique

Recent

Practical

Identity Theft

Practical Tips:

- Report identity theft.
 - ✓ stopping credit companies from letting you pay fraudulent transactions at your name
 - ✓ removing false accounts
 - ✓ extending fraud alert on your account
 - ✓ examining your report to find out the theft

Phishing

the fraudulent practice of sending emails purporting to be from reputable companies in order to induce individuals to reveal personal information such as passwords and credit card numbers

Phishing

Ways to be secured from phishing attacks:

- Be scrutinizing of the website that you are logged in.
- Be cautious on giving information online.
- Be alert with links sent via messages and emails.

Plagiarism

- presenting someone else's work or ideas as you own, with or without consent, by incorporating it in your work without full acknowledgement

Plagiarism

The violation may be one or a combination of these forms:

- verbatim quotation without clear acknowledgement
- cutting and pasting ideas from the internet without proper citation
- paraphrasing without due acknowledgement of the source
- collusion
- failure to attribute assistance made
- autoplagerism or resubmission of works already submitted

Copyright Infringement

- occurs when a copyrighted work is reproduced, distributed, performed, publicly displayed, or made into a derivative work without the permission of the copyright owner

Copyright Infringement

- copyright laws cover works in literary, musical, dramatics, pantomimes and choreographies, pictorial, graphics and sculptural, motion pictures and audio-visual, and sound recordings

Fair Use

- copyrighting method where citation is not necessary or obligated such as:
 1. works that lacks originality
 2. public domains or those which copyrights have expired, or the creator had not registered the copyright of his or her work, or it is owned by the government, or it has been published before December 31, 1922

Fair Use

- copyrighting method where citation is not necessary or obligated such as:
 3. free ware
 4. general facts

Fair Use

- Fair use for teachers and educators:

Purpose of Use: Is it strictly for educational purposes?

Proportion of Extent of materials used: Is it only an excerpt or segment of the work?

The effect on marketability: Did the use of the work not affect the sales of that work?

Laws, Rules, and/or Policies related to ICT

RA 10844

[Constitution](#) [Statutes](#) [Executive Issuances](#) [Judicial Issuances](#) [Other Issuances](#) [Jurisprudence](#) [International Legal Resources](#) [AUSL Exclusive](#)

REPUBLIC OF THE PHILIPPINES
Congress of the Philippines
Metro Manila

Sixteenth Congress
Third Regular Session

Begun and held in Metro Manila, on Monday, the twenty-seventh day of July, two thousand fifteen.

REPUBLIC ACT No. 10844

**AN ACT CREATING THE DEPARTMENT OF INFORMATION AND COMMUNICATIONS TECHNOLOGY,
DEFINING ITS POWERS AND FUNCTIONS APPROPRIATING FUNDS THEREFOR, AND FOR OTHER
PURPOSES**

Be it enacted by the Senate and House of Representatives of the Philippines in Congress assembled:

SECTION 1. *Short Title.* – This Act shall be known as the “**Department of Information And Communications Technology Act of 2015**”.

RA 10844

Under Section 2:

To provide oversight over agencies governing and regulating the ICT sector and ensure consumer protection and welfare, data privacy and security, foster competition and the growth of the ICT sector.

RA 9239

- *Optical Media Act of 2003*
- regulates businesses that deal with optical media in order to ensure that they comply with the intellectual property code
- Individuals who illegally stream mainstream and independent films and concerts, as well as those who post illegal download links on social media sites such as Facebook, should be subjected to additional penalties.

RA 10175

[Constitution](#) [Statutes](#) [Executive Issuances](#) [Judicial Issuances](#) [Other Issuances](#) [Jurisprudence](#) [International Legal Resources](#) [AUSL Exclusive](#)

REPUBLIC OF THE PHILIPPINES
Congress of the Philippines
Metro Manila

Fifteenth Congress

Second Regular Session

Begun and held in Metro Manila, on Monday, the twenty-fifth day of July, two thousand eleven.

REPUBLIC ACT NO. 10175

**AN ACT DEFINING CYBERCRIME, PROVIDING FOR THE PREVENTION, INVESTIGATION, SUPPRESSION
AND THE IMPOSITION OF PENALTIES THEREFOR AND FOR OTHER PURPOSES**

Be it enacted by the Senate and House of Representatives of the Philippines in Congress assembled:

**CHAPTER I
PRELIMINARY PROVISIONS**

Section 1. Title. — This Act shall be known as the **"Cybercrime Prevention Act of 2012"**.

RA 10175

- is a law that defines cybercrime and the penalties that can be imposed on those who choose to engage in such unlawful activities
- the preventive measures they intend to implement in order to prevent cybercrime from occurring in the country.

RA 10175

- Crimes are categorized into three portions:
 - a) Offenses Against Confidentiality, Integrity and Availability of Computer Data and Systems:
 - ✓ Illegal Access
 - ✓ Illegal Interception
 - ✓ Data Interference
 - ✓ System Interference
 - ✓ Misuse of Devices
 - ✓ Cyber-squatting

RA 10175

- Crimes are categorized into three portions:

b) Computer-related Offenses:

- ✓ Computer-related Forgery
- ✓ Computer-related Fraud
- ✓ Computer-related Identity Theft

RA 10175

- Crimes are categorized into three portions:
 - c) Content-related Offenses
 - ✓ Cyber Sex
 - ✓ Child Pornography
 - ✓ Unsolicited Commercial Communications
 - ✓ Libel

RA 8293

Republic Act No. 8293

June 6, 1997

REPUBLIC ACT NO. 8293

AN ACT PRESCRIBING THE INTELLECTUAL PROPERTY CODE AND ESTABLISHING THE INTELLECTUAL PROPERTY OFFICE,
PROVIDING FOR ITS POWERS AND FUNCTIONS, AND FOR OTHER PURPOSES

PART I

The Intellectual Property Office

SECTION 1. Title. - This Act shall be known as the "Intellectual Property Code of the Philippines."

RA 8293

- It is also the policy of the State to streamline administrative procedures of registering patents, trademarks and copyright, to liberalize the registration on the transfer of technology, and to enhance the enforcement of intellectual property rights in the Philippines.

RA 9995

REPUBLIC OF THE PHILIPPINES
Congress of the Philippines
Metro Manila

Fourteenth Congress

Third Regular Session

Begun and held in Metro Manila, on Monday, the twenty-seventh day of July, two thousand nine.

REPUBLIC ACT No. 9995

**AN ACT DEFINING AND PENALIZING THE CRIME OF PHOTO AND VIDEO VOYEURISM, PRESCRIBING
PENALTIES THEREFOR, AND FOR OTHER PURPOSES**

Be it enacted by the Senate and House of Representative of the Philippines in Congress assembled:

Section 1. Short Title. - This Act shall be known as the "**Anti-Photo and Video Voyeurism Act of 2009**".

RA 9995

Under Section 2

- The State values the dignity and privacy of every human person and guarantees full respect for human rights. Toward this end, the State shall penalize acts that would destroy the honor, dignity and integrity of a person.

RA 9775

REPUBLIC OF THE PHILIPPINES
Congress of the Philippines
Metro Manila

Fourteenth Congress
Third Regular Session

REPUBLIC ACT No. 9775

**AN ACT DEFINING THE CRIME OF CHILD PORNOGRAPHY, PRESCRIBING PENALTIES THEREFOR AND
FOR OTHER PURPOSES**

Be it enacted by the Senate and House of Representatives of the Philippines in Congress assembled:

Section 1. Short Title. - This Act shall be known as the **"Anti-Child Pornography Act of 2009."**

RA 9775

Under Section 2

- Guarantee the fundamental rights of every child from all forms of neglect, cruelty and other conditions prejudicial to his/her development
- Protect every child from all forms of exploitation and abuse

Additional Readings

Read here:

https://www.researchgate.net/publication/330037080_Digital_Citizenship_Implications_on_Rights_of_Filipinos_and_ICT_Laws_in_the_Philippines

MALWARES

- shortened term for malicious software
- any intrusive software developed by cybercriminals (often called hackers) to steal data and damage or destroy computers and computer systems
ex. computer viruses, worms, and dishonest spyware

COMPUTER WORMS

- programs that can replicate themselves from one computer to another in great volume and can spread themselves rapidly without human intervention

SPAM

- usually junk mails sent in your email, but there are times that they contain links that you put a risk.
- These links may be connected to malwares that intend to steal your data.

PHISHING

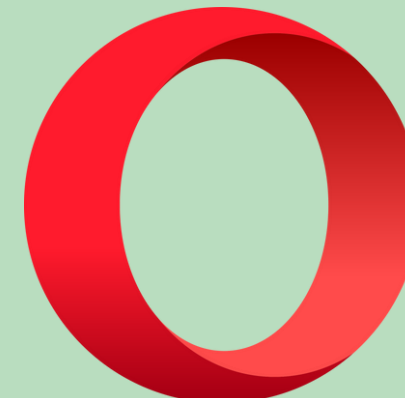

- created by cybercriminals who intend to ask for private or elicit information from the victims

BROWSER-SELECTION

- Be sure that the browser that you are using is secured.

EMAIL SECURITY

- Try to establish a multilayered and comprehensive email security because this will significantly increase protection from threats associated with email use.

EMAIL SECURITY

- Messages via email can be protected by encrypting the message and by encrypting the communication between servers through cryptography.

MULTI-FACTOR AUTHENTICATION

- This is a process by which computer access is controlled by requiring several authentication mechanisms.

FIREWALLS

- Firewalls are the first line of defense among networks.
- These are security tools that prevent unauthorized access to a network. Thus, it has the capacity to allow or deny access to the system.

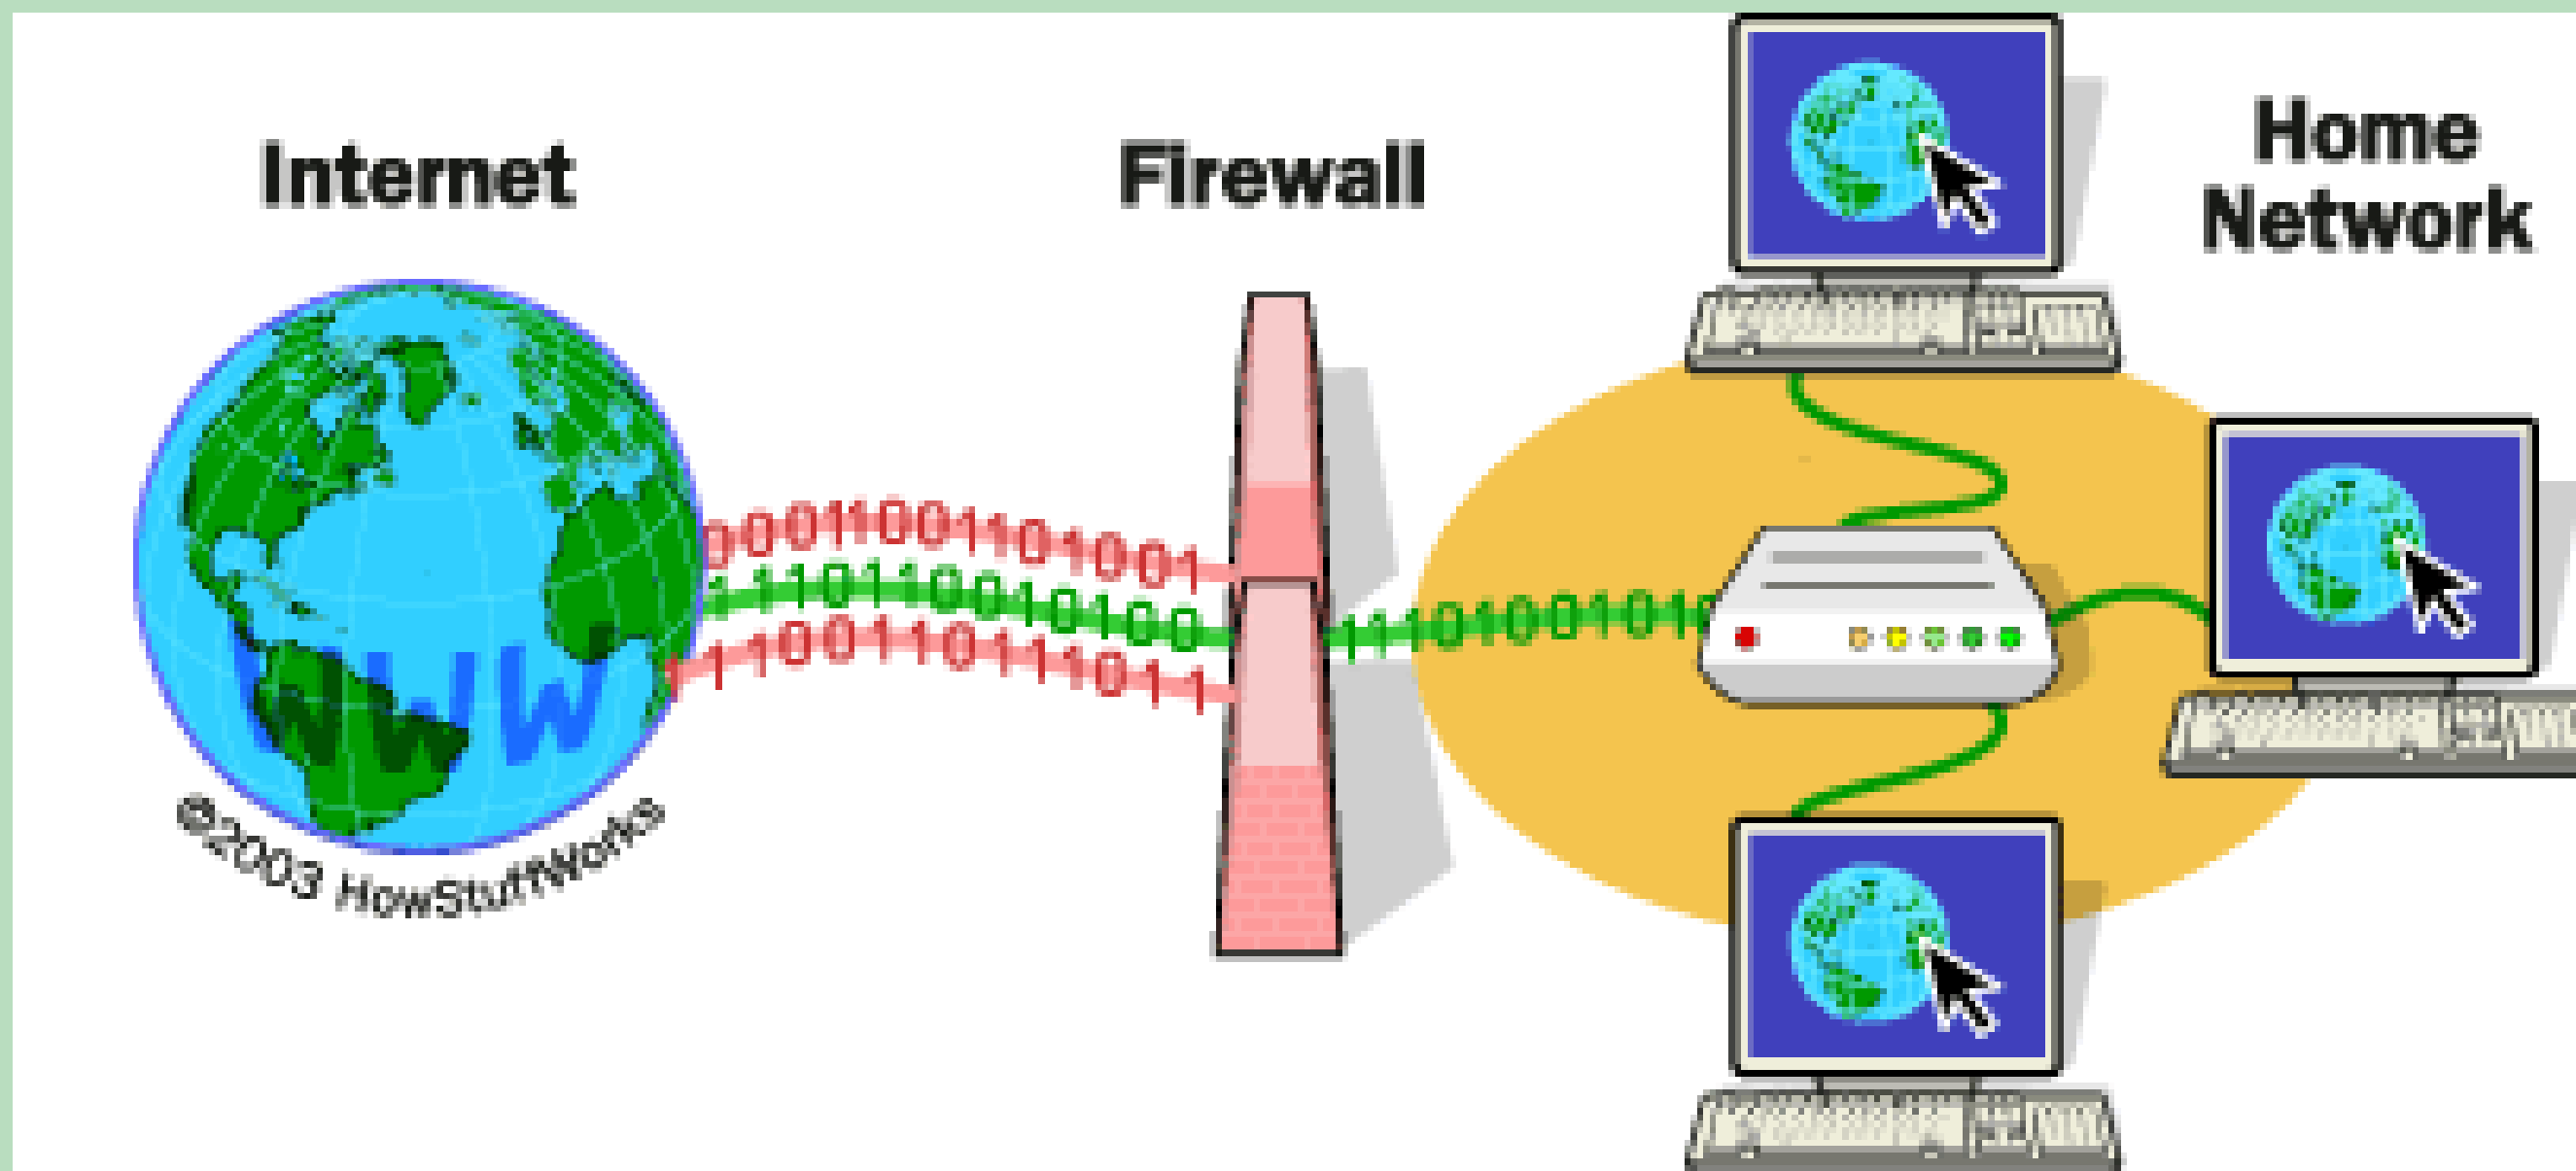

FIREWALLS

- it protects the network by being embedded with unwanted data, and it protects the data in the network from being stolen

Internet Security Strategies

Netiquette: Online Ethics and Etiquette

Let's Define

ETHICS 🔍

also called moral philosophy, the discipline concerned with what is morally good and bad and morally right and wrong

ETIQUETTE 🔍

a set of customs and rules for polite behavior, especially among a particular class of people or in a particular profession

NETIQUETTE 🔍

describes the **rules of conduct** for **respectful and appropriate communication** on the internet

Internet Ethics

“the analysis of the role that the internet plays in what philosophers call the development of good life-- the kind of life we want for ourselves, for society overall, the kinds of people we want to be”

Internet Ethics

Internet Ethics maintains a space that respects and promotes the rights and humanity of users.

Internet Ethics

- **Privacy-** While internet users are required to provide data for online transactions, how secure would these data be that these cannot be used against them? Can the government or private organizations use internet for doing surveillance on private individuals or entities without their knowledge of the matter?

Internet Ethics

- **Big Data**- big amounts of data are being collected, managed, and maintained
- **Net Neutrality**- This means that all internet providers should give equal treatment to all contents that flow in their network.
- **Access to the Internet**- If internet is a right, then, how do we view the large portion of humanity that does not have or have limited access to it?

Netiquette: Online Etiquette

- Be always courteous.
- Do not use foul language and incite anger by writing in uppercase and overusing the exclamation mark.
- Appropriate your humor and avoid sarcasm.
- Do not share or post offensive materials.
- Always acknowledge owners of ideas and materials used.
- Try to be understanding to a maximum tolerance. Be kind.
- Respect others' opinions. Deal with everyone with a humanitarian approach.

PERFORMANCE TASK 1

Netiquette

ONLINE ETIQUETTE

apply online safety, security, ethics, and etiquette standards and practice in the use of ICTs as it would relate to their specific professional tracks

Group Activity: *Lights Camera Action!*

Read and understand the given situations and enumerate ways on how you will apply online safety, security, ethics, and etiquette standards and practice in the use of ICTs. Show your answers through a short role play.

Group 1

Scenario 1: Online Shopper

You are an avid online shopper looking for the best deals on a popular e-commerce website. You come across a website that offers products at unbelievably low prices. However, it seems suspicious, and the website is not secure. How do you ensure your online safety and security while shopping for products online, and how do you handle the ethical dilemma of potentially supporting a scam?

Group 2

Scenario 2: Social Media User

You are an active social media user with a large following. A close friend confides in you about a personal issue, asking for advice. You know this information is sensitive and private. How do you maintain ethical standards by respecting your friend's privacy while using social media?

Group 3

Scenario 3: Cyberbullying

You are a high school teacher, and one of your students, Sarah, approaches you during a break looking visibly upset. She confides in you that she has been experiencing cyberbullying on social media. Sarah shows you hurtful messages and comments that have been posted about her, and it's clear that this is affecting her emotional well-being and concentration in school.

How will you address this situation as a teacher?

Group 4

Scenario 4: Plagiarism

You are SHS students working on your concept paper as a group.

To successfully complete your paper, you have to do an extensive research and writing. One day, while reviewing your groupmate's work, you notice striking similarities between her work and the article you have read earlier. It becomes evident that your groupmate has plagiarized a significant portion of the article. How will you address this situation?

Group 5

Scenario 5: Teacher/Educator

You are an online educator conducting virtual classes for students of different ages. During a live session, a student begins sharing inappropriate content in the chat and disrupting the class. How do you handle this situation while maintaining a respectful and inclusive online learning environment?
